Our author visit with Julie Bowe was fabulous! The kids LOVED it! Her presentation was very well organized, meaningful and had plenty of age appropriate student involvement. Julie was so attentive to the students and so enthusiastic. She was a joy to watch and we'd love to get her back at Putnam.

Congratulations to Julie Bowe for finding the perfect mix of fun and sensitivity in her wonderfully interactive school presentation. Julie kept the students on their toes with games and props while she described the process of writing and publishing a book. I highly recommend a visit with Julie Bowe.

Julie Bowe came to our school and the students were excited. She explained the process of writing by using volunteers to wear different props. Long after her visit the children still remember the props and the process of writing. Her entire presentation was interactive with the students. They were listening to her every word. It was one of the best author's assemblies I've attended. I highly recommend Julie Bowe for your school.
